CLASS HISTORY

We, the class of '38, after four years of work and fun prepare to leave the school that has become dear to our hearts because of what it has done for us. I shall endeavor to relate some of the scenes of our past school life.

It was September of '34 and time for initiation into high school. There was a call for "rats," and we came in greater abundance than "rats" have ever come before, for it took two rooms to accommodate us. We will never forget those first few days in which we were so bewildered with the pain and indignity inflicted upon us by the upper classmen. This day of "Woe" was ended by our friend Mr. Mort. Finally the glorious day came when we passed our tests and were no longer "rats" but Sophomores.

We were proud to be Sophomores, but it really wasn't as much fun as being "Rats."

In order to obtain money for the banquet that we were to give the Seniors the next year, we sold candy and chances for cakes. We were also awarded a small sum of money by the Patron's League because of our attendance record.

Then came those hard days of study for examinations but we survived the storm and emerged with the honor of being Juniors.

Our Junior year was the happiest of our four years' struggle for an education. We had now made many friend and acquaintances.

As the money which we had obtained in the Sophomore year was not sufficient to cover the cost of the banquet we were to give the Seniors, we gave a party, sold more candy and cakes. At last we collected enough money and gave an elaborate banquet in honor of the Senior Class at the Warwick hotel.

With little time to spare we made up our minds to study hard, and as a result we soon became Seniors.

September came and we could hardly believe we were Seniors. The pain and indignity we had suffered as "rats" now became but a pleasant memory.

Our class is outstanding for its school spirit, and class cooperation, and we feel elated to know that we are the largest graduating class in the history of Morrison High School. We worked diligently and tirelessly on the 1938 volume of the "Warwick" and were rewarded by having an annual of which we can really be proud.

Our class meetings were long and numerous, and we accomplished much with the strict enforcement of Parliamentary rules. We leave now with our hearts full of gratitude and thankfulness for the instruction and patience of our teachers. We still wonder how the teachers of our four years at school survived the trouble and confusion that we caused. We say goodbye now with sincere thanks and wishes that our teachers and friends may "live happily ever after."

Our hopes and aspirations have been lifted upward and onward by you, our dear Alma Mater, and the success of future years will be laurels to adorn our walls of fame created by the memories of you, dear old M. H. S.

BRUCE KASTELBERG, '38.

CLASS PROPHECY

Hello, everybody! This is Dorothy Wood, your personality parade reporter, bringing to you the highlights in the lives of those Morrison High School graduates of that distinguished Class of '38. Numerous achievements were predicted for this class in that year, and now that we have reached the halfway mark of the twentieth century, let us pause a moment to see exactly what has been accomplished by them.

I have just received news that the President of the United States, the Honorable Irene Anderson, has appointed Miss Virginia Weltmer to fill the secretarial vacancy in the White House. This important position was formerly held by Dorothy Langslow, who resigned in order to devote her entire time to domestic affairs in her home.

Helen Wood, Superintendent of the State Homemaking Department of Virginia, has at last succeeded in interesting a number of young girls of this state to take an active part in carrying out the daily work routine in the home.

Lois Wiseman and Caroline Alexander pedaled off with the $5,000 prize in the six-day bicycle races yesterday at Madison Square Garden.

Doctors Heywood Thacker and Jack White, founders of the Whitewood Institute, were guests of the Archbishop of Canterbury while in London recently.

Ruth Crane and Elizabeth McCartney have decided to spend the rest of their lives "listening in." They are both telephone operators in Swandale, a rapidly growing town.

News from Washington! Action is blocked in the Senate because of the successful filibuster being carried on by that indefatigueable Senator from Virginia, Aubrey Harris.

Bobby Turlington, a rising young actor, is sailing for France tomorrow on the Queen Mary, where he will join his attractive wife, Deanna Durbin.

Flash! In her secluded home in the Mountains of Virginia, Louise Watson is producing what the public believes will be her greatest masterpiece in history. This book composed of 500,000 words is entitled "How to Make the World Safe for Democracy."

I have just learned that Raymond Parker and George Keane, two mechanical engineers, are working on plans for building a bridge across the Pacific.

Eileen Kelley has been proclaimed by the world as the greatest Metropolitan Opera singer. Her presentation to the King of England this fall will receive universal attention.

Robert Meyers, president of the Greyhound Bus Lines, is contemplating the extension of this famous transportation system throughout the continents of Europe and Asia.

While reading the society column of a Miami newspaper, I found that Miss Virginia Collins, a Newport debutante, entertained at her summer home with an informal luncheon. Among those guests attending were Annie Moore, that distingushed and well-known poetess; Pearl Peach, celebrated prima donna of Paris; Elva Poindexter, star of the London Opera Company; Ruby Hale, a modern dress designer, whose creations are said to equal those of Schiaparelli; and Ada Laymand, noted evangelist who has only recently returned from Africa, where she accomplished much in seeing the Bible translated into several of the native African dialects. The famous drawings and caricatures of Broadus Haughton provided the chief topic of conversation.

Charles Smith, a construction engineer, has been sent to Central America to begin work on a new and larger canal across the Isthmus of Panama.

Dr. and Mrs. David Hostetter are leaving tomorrow for New Orleans, where they will attend the annual session of the Southern Medical Association.

In a recent interview with that famous woman publisher of New York City, Virginia Dougherty, I learned that a certain book just off the press was taking the married women of America by storm. This book, "How to Become the Perfect Housewife," was written after ten years of successful experimentation by Billie Husbands.

Mildred Rogers and Audrey Cooke, teachers at the Newport News High School, will attend the summer session beginning June seventeenth at William and Mary College.
Flash! Flash! John Shafer has become a second Ely Culbertson. His skill as a bridge player has received the attention of many professional experts.

Jean LaFoy will sail tomorrow for the Hawaiian Islands, where she will assume her duties as a French instructor.
Helena Yoder and Edith Hertzler have found a home for old ladies, where they tenderly care for the aged.

South Bend, Indiana! Jim Givens and Eddie Irby, proprietors of the Notre Dame Soda Shop, which is located near the stadium, have concocted a new soda, the "gridiron special." A very amusing incident occurred during the football training season which caused two very promising football players namely, Jack Cardoza and Henry Evans, much embarrassment These players had just been served a "gridiron special" with a double dip of ice cream, when in walked Coach Crigler of Notre Dame College.

Speaking of football, Elmer Curtis, who began his career as manager of Morrison's "Fighting Farmers," is now coach of the "Blue Devils" of Duke University. In the coming season, Curtis intends to use J. T. Leicester as his main right end defense, and Luther Wright, All-American quarterback.

As a reward for being selected the typical American red-head, Gene Cochran automatically took over the presidency of the D. P. chain of stores today.

The United States Patent Office issued a patent this morning on Lucille Creech's perfected giggle.

Harry Swain has been recently appointed head of the TWA Transport Airways. He has secured the following young ladies as stewardesses: Miss Virginia Dadds and Miss Mary Langslow.

Julian Coleman and Alex Baxter have had their ambitions realized. They are "Big Leaguers" now. Coleman plays shortstop for the Giants, and Baxter is the Yankees' best first baseman.

Flash! Local news! Mary Stuart Hornsby, the only interior decorator in Newport News, has sold Mary Diffendeffer half interest in her little shop on Washington Avenue.

Evelyn Becker and Esther Good returned today from an airplane flight across both the North and South poles. Their flight was sponsored by Bruce Kastelburg, president of the Radio Corporation of America.

Mildred Shenk, directress of nurses at the Updale Hospital in Providence, Rhode Island, will make a tour of several New England hospitals next month. Dorothy Ingram, head dietician of the American Dietetics Association, and Thelma Cox, a visiting nurse, will accompany her.

After graduating from the Annapolis Naval Academy, Russell Rowe found time to organize a knitting club for the Navy football team.

Flash! Gary Joyce, a successful Broadway dancer advertised last week for a dancing partner, and Anne Goodwyn, a talented tap-dancer, was given the job.
Jack Maclay is traveling the "royal road to romance" in the Richard Halliburton style. At the present time he is working his way to Australia on a tramp steamer.
An interesting biography of the life of the Duke of Windsor has been written by Robert Mattox, a former West Point cadet.
If jewelry or other valuables have been stolen from you, for prompt and efficient service, telegraph Ethel Auman, Nancy Pollock and Ruth Woodfin, in care of the Canadian Northwest Mounted Police.
This concludes "The Personality Parade Review," which was a presentation of Station MHS, brought to you through the facilities of the Morrison High School broadcasting station.

DOROTHY WOOD, '38.

CLASS CREED

As we stand upon the threshold of the future that lies before us, with a strange deep feeling, we, the Class of 1938 .turn our thoughts backward to consider the ideals which we have tried to achieve, and the goals at which we have aimed. With stir ring emotions we leave this spot which has come to have a strong hold upon our hearts through the experiences of the years. During this period of time we have formed our opinions and held to our beliefs.

First, we believe in God, our Heavenly Father and the Creator of all things.

We believe in our nation and feel proud of its achievements and the freedom with which we are blessed.

We believe in our state, Virginia, where were planted the first seeds of our great United States.

We believe in Warwick County in which is located our school, Morrison. We have faith in the administrators of the school who have proven themselves so efficient in their work.

We believe in our principal, Mr. Mort, and we realize that his energies have been nobly devoted to making Morrison a better school.

We believe in the members of the faculty who have labored earnestly with us during these memorable years which we have spent together.

We believe in our Annual and its sponsor, Miss Giannotti. We feel that this work, which is our own, will serve to preserve in memory many of the experiences of our school days.

We believe in the clubs, athletics, and various activities which have helped to build character and to develop the body.

We believe in the student body of Morrison High School and we realize its splendid educational facilities.

In conclusion, we believe in our own Senior Class. We feel bound by common ties since we have spent days together in work and play. As we step from the door of this dear school we trust that our motto, "We learn not for school, but for life," has really been exemplified in our work, and that we shall be prepared to meet and see creditably the tasks and duties that await us.

LOUISE WATSON, '38.

A SCHOOL ★ ★ REVERIE

The old school bell has rung its last
No more we'll hear its toll,
To assemble here as the senior class,
To answer to the roll.

The schoolboy's last rash deed is marked,
In the teacher's record book,
And memories clear will oft remain,
Of the long feared angry look.

No visions of tomorrow's strains,
No thoughts of tomorrow's strife,
We hurry along and rack our brains,
To a long and happy life.

We hate to leave our new brick palace,
But know it's in good care,
For we know the ones that take our place,
Will likewise do their share.

MARY AND DOROTHY LANGSLOW.
